

Test User Occupational, Ability

(formerly Level A Occupational Testing)

Internationally recognised certificate of competence

Aims

- Qualify to British Psychological Society (BPS) Test User standard
- Become a fair and efficient administrator
- Know how to interpret a wide range of tests
- Experience giving feedback on ability tests
- Appreciate the legal implications of testing

CONTENT

- What are tests?
- When should they be used?
- How to evaluate fairness and validity
- Practise test administration and feedback
- Explore a wide range of available tests
- Assessment of personal competence

WHY TEAM FOCUS?

- Training is conducted by Chartered Occupational Psychologists
- Team Focus was involved with establishing the standards for Level A testing with the BPS
- We have extensive experience in successfully training over 1000 people to Level A competence
- We introduce you to a wider range of market-leading ability tests from different publishers than any other trainer
- We use online and paper-based tests available through Profiling for Success
- You will receive free use of the latest online tests
- Learn from consultants who have extensive experience in the development and application of tests in occupational, educational, clinical and careers guidance areas

WHO SHOULD ATTEND?

Those who want to:

- Improve their selection and development processes by introducing psychometric tests
- Understand how to select, apply and interpret tests in a range of instruments
- Gain practical experience in the administration and feedback of test results
- Work towards the BPS Level A qualification

QUALIFICATION

- This course is based on the BPS qualification system. Successful completion achieves accreditation of BPS Test User Occupational, Ability qualification
- You will be able to register and purchase most ability tests including the Verbal, Numerical and Abstract Reasoning, the Career Interests Inventory and the Learning Styles questionnaires from the Profiling for Success series of instruments - online and paper-based - published by Team Focus
- With your Test User Occupational, Ability certificate you will also be able to purchase ability tests from other publishers distributors. You will need to discuss with each one to clarify their conditions of purchase
