

Specialist in Test Use

Obtain the pinnacle of the British Psychological Society qualification in Psychometric Testing

AIMS

- Become an expert in personality models and questionnaires
- Develop your confidence to critically evaluate personality questionnaires in common usage
- Understand the limitations for the psychometric model – go beyond reliability and validity
- Obtain the highest level of qualification in Psychometric Testing
- Enjoy a forum for discussion and debate with other practitioners

CONTENT

- Different approaches to personality
- Alternative ways of measuring personality
- Description, classification, evaluation and critiquing of questionnaires
- Applications and usage of different instruments

WHY TEAM FOCUS?

- We train people in a wider range of tests and questionnaires than any other trainer
- We are recognised as one of the most knowledgeable practitioners in the area

WHO SHOULD ATTEND?

Those who:

- Need to understand people better
- Recognise that no single approach will cover all your needs
- Already have the British Psychological Society Test User Ability and Test User Personality qualifications in two instruments.
- Want to qualify for the British Psychological Society Specialist in Test Use Certificate
- Would like a fresh perspective on personality measurement
- Consider it important to be fair but critical of claims made for various instruments
- Would benefit from a wider and deeper perspective

QUALIFICATION

- Successful completion of the course and post-course work results in the British Psychological Society Specialist in Test Use Certificate. You will be able to attend conversion courses with various distributors. Some publishers will allow you to become registered to purchase further personality instruments
- Please note that all publishers and distributors vary in their approach to the Specialist Test User (formerly Level B Full) Certificate and you will need to discuss with each one to clarify exactly what they recognise

FOLLOW-ON COURSES

Other specific questionnaire training such as Psychological Type (TDI[®], LSI, MTR-i[™] and ITPQ), 15FQ+[™] and the 16PF[®] family, NEO PI-R[™] and FIRO[®] instruments.
